Tycom Training Requirements - Course Quotas

New ▼ Edit ▼ View ▼ | [NewsBox Properties](#)

Tycom Course Quotas

Displays Deficient Grads (Tycom), Reservations (Tycom), Reservations - Deficient Grads, and Quotas Available (All-Navy). It also shows the number of reservations as a percentage of the number of grads needed to meet Tycom training requirements and shows the total number of Tycom Cin requirements as a percentage of the total number of quotas for those Cin's. The data sources include TYCOM Training Requirements and CETARS: Course Grads, Course Quota, and Course Reservation.

Modified: Tuesday, October 28, 2003 15:19:04

[Actions](#) [Properties](#)

Tycom CSE Quotas

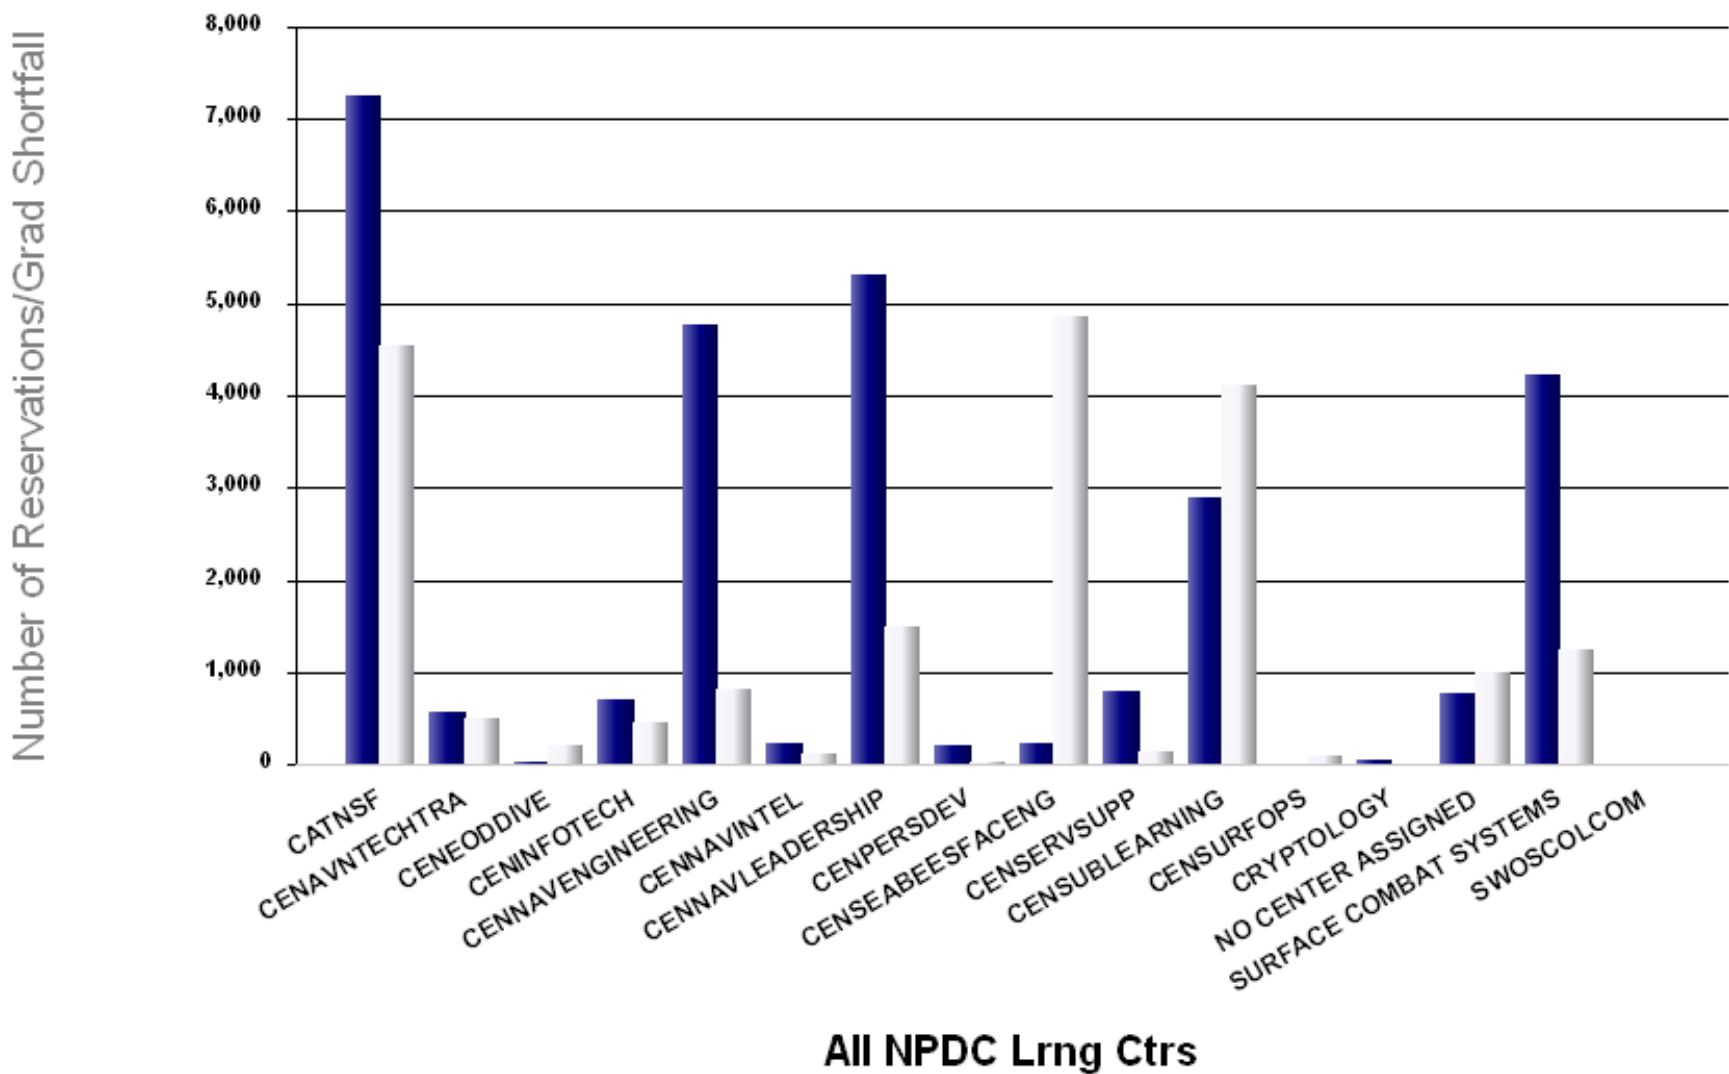

Displays Deficient Grads (Tycom), Reservations (Tycom), Reservations - Deficient Grads, and Quotas Available (All-Navy). Data may be viewed either for All NPDC Learning Centers or for a single center by selecting the desired filter. It also displays the number of reservations as a percentage of the number of grads needed to meet Tycom training requirements the total number of Tycom Cin requirements as a percentage of the total number of quotas for those Cin's. The data sources include TYCOM Training Requirements and CETARS: Course Grads, Course Quota, and Course Reservation.

TYCOM Training Requirements by Deploy Group

The bar graph displays # Distinct Cin Rqmts and # Distinct Cin Rqmts Satisfied. # Distinct Cin Rqmts is a count of the courses identified by the Type Commanders as training requirements. # Distinct Cin Rqmts Satisfied is the number of those courses where 100 percent of the required graduates are onboard. The swatch displays # Distinct Cin Rqmts Satisfied as a percentage of # Distinct Cin Rqmts.

[E-Learning](#)

This visualization contains twelve charts. Two display elearning course utilization. Four display the number and percentages of users and grads. Four display the number of elearning courses in process and completed by year/quarter/month. The remaining two display the number and percentage of active-duty elearning users by type duty. The datasource is Navy E-Learning.

Modified: Wednesday, October 22, 2003 20:06:17

[Actions](#) | [Properties](#)

[E-Learning Courses Not Utilized Subreport](#)

Displays all E-Learning courses that have never been used. The datasource is Navy E-Learning.

Modified: Wednesday, October 22, 2003 18:08:22

[Actions](#) | [Properties](#)

[E-Learning Top Courses](#)

Displays the total number of times an E-Learning course has either been completed or initiated. The courses are grouped by library and sorted in descending order. The datasource is Navy E-Learning.

Modified: Wednesday, October 22, 2003 18:27:01

[Actions](#) | [Properties](#)

[E-Learning Users Type Duty](#)

Displays the number of ELearning users for each type duty (sea, shore, etc.) and personnel

[E-Learning Course by Period](#)

Displays a count of ELearning courses completed by each user group and a count of ELearning courses in process by user group. It also displays a count of ELearning courses completed by library and a count of ELearning courses in process by library. The datasource is Navy E-Learning.

Modified: Wednesday, October 22, 2003 18:08:18

[Actions](#) | [Properties](#)

[E-Learning Courses Utilization Summary](#)

Displays the number of ELearning courses by progress status for each library. In Process counts each instance where an individual is currently enrolled in a course. Complete counts each successful course completion. Not attempted counts each instance where an individual opened a course, but did not attempt to complete it. Not Utilized is a count of the courses that have never been used. The datasource is Navy E-Learning.

Modified: Wednesday, October 22, 2003 18:09:42

[Actions](#) | [Properties](#)

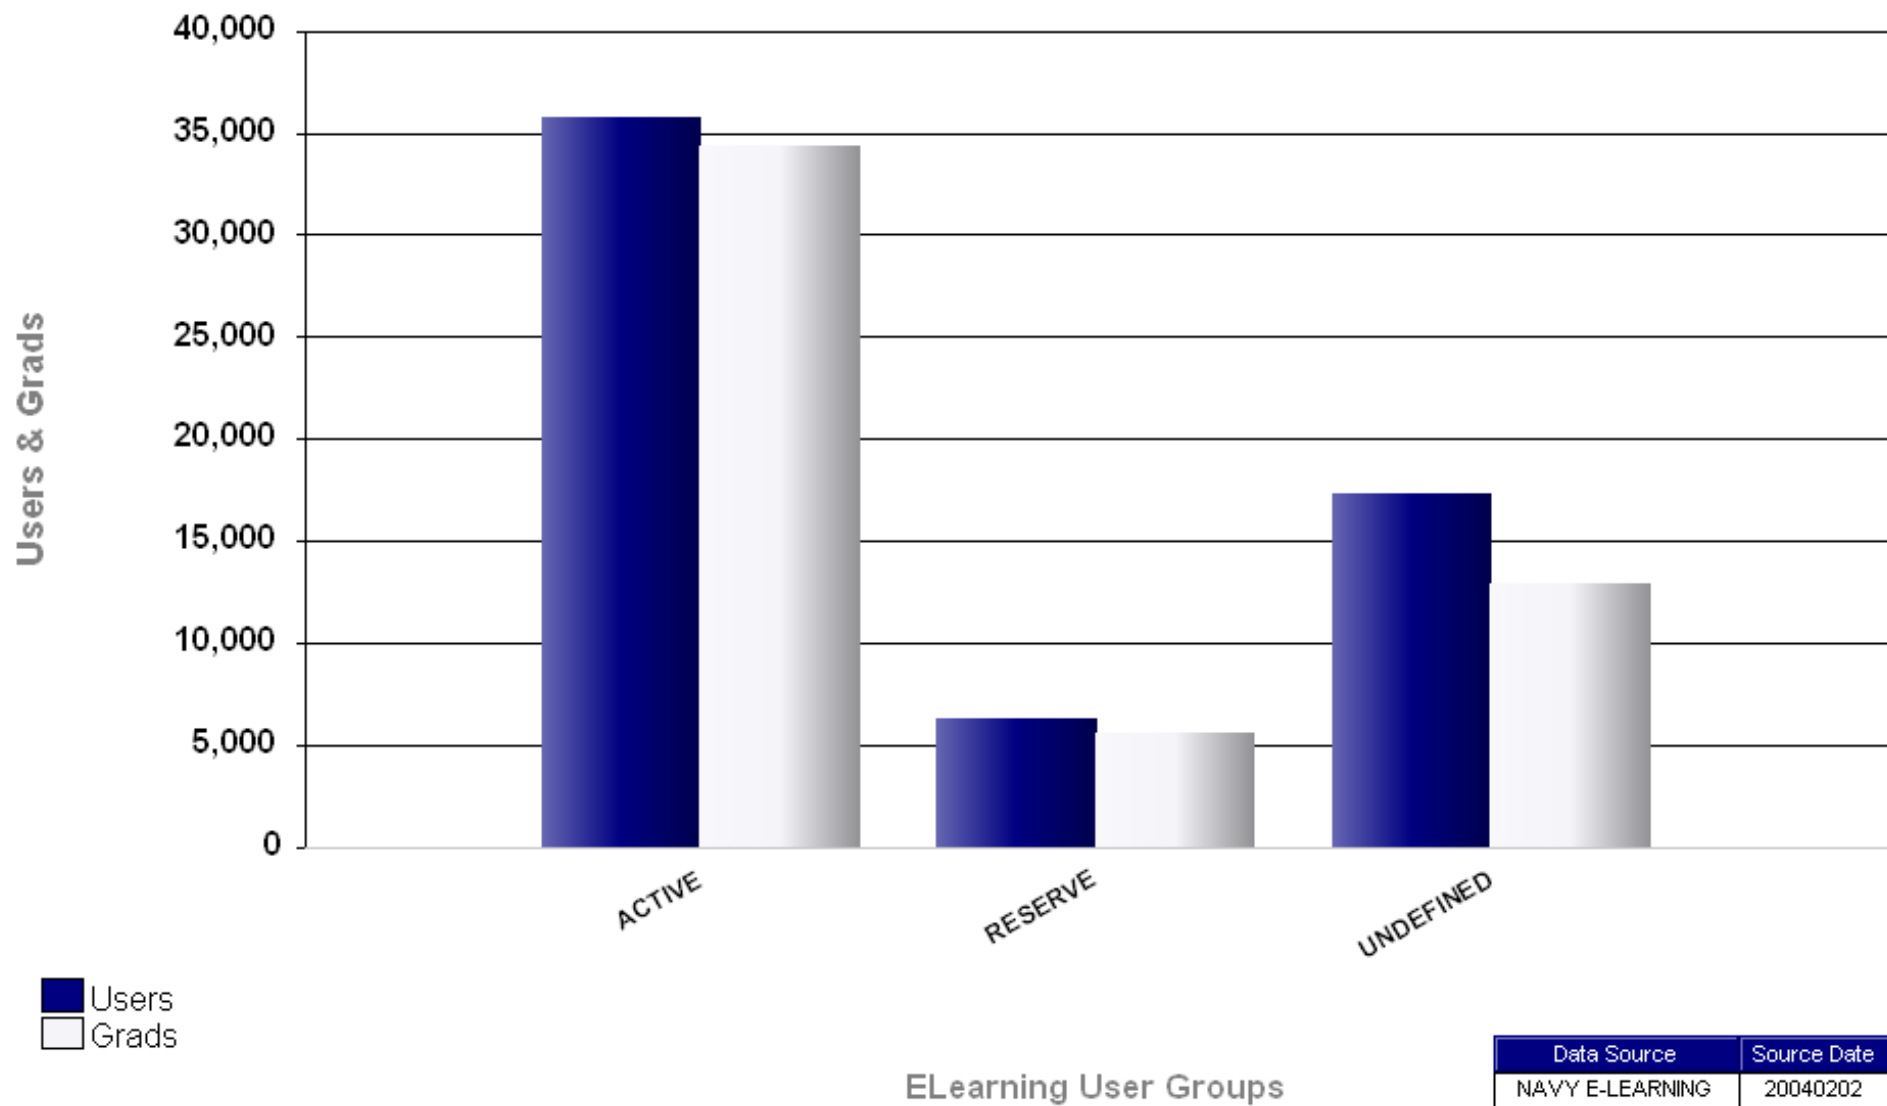

[E-Learning Users](#)

Displays the number of ELearning users & grads for each personnel group (USN enlisted, USNR officer, etc.); displays ELearning users & grads as a percentage of their total personnel group; displays ELearning users and grads for each personnel group as a percentage all users and grads. The datasource is Navy E-Learning.
